Kathy,

Here is what is to be done:

There is to be top soil hauled in, packed and leveled the size of a softball infield. It is to be edged with

grass so that it is a defined skinned infield. Home plate, pitchers plate and bases will be set at proper distances. There will be a portable net purchased for a back stop to go behind home plate to catch errand throws. It will be portable so it can be used on the regular game field or where ever it is needed and to be able to secure it when not in use.
