

15 Jan '13

To the Selection Committee of the KHSAA Hall of Fame,

In a coaching career of nearly forty years, Ed McFarland is perhaps the most remarkable person I have ever known. In high school, he was an extraordinary student, an exemplary person, a dynamic leader, a fearless competitor, and a truly marvelous football player. He was a winner in everything he did, and his commitment to excellence resonated throughout his teammates and fellow students. At a high school with a storied tradition of great football players, he is among the best to ever play for the Blue Tornado.

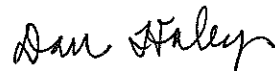

He has become a world class orthopaedic surgeon, a leading medical research physician, a humanitarian, and a loving husband and father. I can think of no other person with such depth of talent, good will, genuine humility, and dedication to service.

He has written over 160 peer review articles, 30 non-peer review articles, 20 book chapters in various medical texts, and is the author of a leading medical textbook entitled Examination of the Shoulder - the Complete Guide (2006 Thieme Medical Publisher, NY).

Early in his career, he did a fellowship with Dr. Frank Jobe, who pioneered the rotator cuff surgery that saved the careers of so many major league baseball pitchers. Since that time, Ed has made contributions to sports medicine that have allowed athletes and non-athletes alike with bone and joint injuries to return to normal function in a remarkably short time.

Kentucky high school athletes in all sports are among those who have benefitted from the work of Dr. Edward G. McFarland, and he is truly deserving of induction into the KHSAA Hall of Fame.

Dan Haley

Head Football Coach PTHS 1970-82

Feb. 8, 2013

FEB 11 2013

Commissioner Julian Jockett

KHSAA

Lexington, Ky. 40505

Julian,

I'm sure you will realize that I do not personally know this nominee for the KHSAA Hall of Fame. However, I have ^{been} asked to endorse him through my close friend, Don Haley. You will recall Don was inducted into the KHSAA Hall of Fame a few years ago.

I must say, had I received this nomination form out of the blue, I would immediately have endorsed him. It is amazing what Dr. Edward McFarland has accomplished in his short life time. There is no doubt he qualifies, not only as a high school & college athlete, but even more so as a contributor in the field of sports medicine.

I hope you, along with the members of the selection committee, will study the information provided by Coach Haley and give full consideration to Dr. Edward McFarland. This Paducah native would be an excellent selection to the KHSAA Hall of Fame.

Respectfully,
Tom Mills

Curriculum Vitae

Edward G. McFarland, M.D.

To the selection committee of the KHSAA Hall of Fame.

This letter is to support the nomination of Edward McFarland MD to the KHSAA Hall of Fame.

I served as Superintendent of Schools in Paducah during the time Ed McFarland was a student-athlete at Braselton Junior High and Paducah Tilghman High School. Ed was an excellent student, a leader in the schools and one of the best athletes it has been my pleasure to watch grow and excel. My son was in the same year in school and played football with Ed and they became good friends during their time in school so I had an opportunity to watch his growth as student and leader.

I was impressed with Ed's ability and commitment to help others in their academic pursuits. He served as a model student, often helping those who were less academically able and those around him were encouraged to follow his example and advice. Others will write of Ed's excellence in football as a High School and College player and his success as a physician. I know that his excellence came about not only because of his natural ability but because of his hard work, willingness to follow the directions of his coaches and his desire to learn and share his knowledge.

In short, Ed McFarland was and is a person who serves as a model for those who have known him over the last forty-four years. I recommend him without any reservations to become a member of the KHSAA Hall of Fame. Ed would be an excellent addition to those honored by the KHSAA.

W. David Whitehead Ed.D
